

Guidelines for choosing the topic of the Final Project

This is an individual project.

Project Title, Project Summary

Submit to the Dropbox on D2L the following:

1. Project Title.
2. Project Description (*a couple of paragraphs describing your project title in more detail*)

Sample topic ideas (Feel free to choose your own!):

1. Matchmaking Database - Database of friends – match them up by interests, age, etc.
2. Library DB - Search collections, check status, checkout, etc.
3. Job postings DB - Openings, contacts, references, requirements, etc.

Your database should use approximately 4 tables at the end of the project.
